More **exhibition.**

**30 November 2010
to 1 December 2010
Stuttgart**

Every year, the gat gas conference is THE event on the topic of GAS and a first-class platform for an exchange of opinions and experience concerning all technical and innovation-related topics within the gas industry. The combination of conference and exhibition attracts some 3,000 specialists and managers every year – from utilities, industry, research establishments, government, organizations and local government.

The new gat offers even more benefits for participants and exhibitors:

More topics

Results of the “gas technology” innovation campaign
Role of gas infrastructure in the future energy market
Technical regulation management

Exciting innovations

Germany’s largest gas industry exhibition¹
Technical innovations in the field of gas and biogas
Guided thematic tours of the exhibition

A good atmosphere for discussions

Two full days of conference and exhibition
Generous breaks
Interaction and networking

gat is organized under the responsibility of

with the support of

Energie. Wasser. Leben.
